

Gift Acceptance Policy

Lymphoma Foundation of America (LFA) has a policy starting from the time it was founded that it does not accept donations from the pharmaceutical industry in any form, whether cash or in-kind.

Lymphoma Foundation of America will accept cash donations from individuals provided the donation is unrestricted (provides general support for the organization). As required by law, LFA will report any donation of \$5,000 or more from an individual to the Internal Revenue Service on Form 990.

Lymphoma Foundation of America will acknowledge each donation with an acknowledgment letter or email. For memorial gifts, LFA will also send a letter of sympathy and acknowledgment to the bereaved family. Letters state that the donation is tax-deductible under the 501(c)(3) provisions of the Internal Revenue Code.

Lymphoma Foundation of America will accept the donation of an office item, piece of equipment or office supplies if they are in good condition. The value of such donated items is determined by their fair market value in the re-sale and re-cycle market.

Lymphoma Foundation of America accepts donations of stocks, bonds and other securities in accordance with IRS regulations. Securities are valued according to IRS regulations for determination of fair market value.

Lymphoma Foundation of America accepts donations of vehicles according to IRS regulations.

Lymphoma Foundation of America will accept grants from foundations, government agencies, and nonprofit organizations provided that the purpose of the grant is consistent with LFA's educational mission.
